## **inomed Medizintechnik GmbH - Trendsetter in IONM**

Dear Sirs,

Since 1991 we have been working on improving technologies for intraoperative neuromonitoring.

With the **OSIRIS Cortical** and the software controlled **OSIRIS Neurostimulator**, we offer two state of the art, modern and benchmarking stimulators for universal intraoperative use:

### **TOP FEATURES**

- High-end, precise, constant current stimulator
- CE certified and also approved for cortical and subcortical stimulation
- Programmable stimulator with multiple stimulation modes
- Very fast and user friendly handling due to the possibility of easily creating pre-defined user programs
- Unique stimulator on the market with 1 to 220 mA constant current for TES MEP
- Compatible with any EMG device using TTL trigger in/out
- Upgrade to a complete IONM system possible without an additional stimulator
- Solid and shielded casing
- Wide range of specialised stimulation probes

Don't hesitate to contact us for any further information. Please fill the fax answer on the backside or send us an e-mail: [info@inomed.com](mailto:info@inomed.com).

Sincerely yours

**Your inomed Medizintechnik GmbH**
