Visit of Chancellor Angela Merkel at inomed's Booth on World Forum MEDICA

Chancellor Angela Merkel and health minister Philip Roesler visited inomed's booth on their official MEDICA tour to get to know the company's latest innovations.

inomed was one of the six chosen companies among 5,000 exhibitors, which was on the chancellor's MEDICA tour plan on Wednesday the 17/11/2010.

CEO Rudi Mattmueller presented the C2 NerveMonitor to the chancellor and health minister who were impressed by inomed's innovation. The user friendly system has been developed for surgical interventions in operating theatres and can continuously monitor motor nerves.

inomed is Germany's market leader in recurrent monitoring during thyroid surgery. With 120,000 interventions per year, the nerve monitoring can identify and protect vocal cord nerve of patients. Due to the nerve system monitoring, the paralysis of vocal cord nerves has been dropped from 7 to 1%.

The company based in Emmendingen, near Freiburg, has been founded in 1991. Its expertise is, besides intraoperative neuromonitoring, functional neurosurgery, pain treatment and neurological diagnostic.
